October 10, 2016

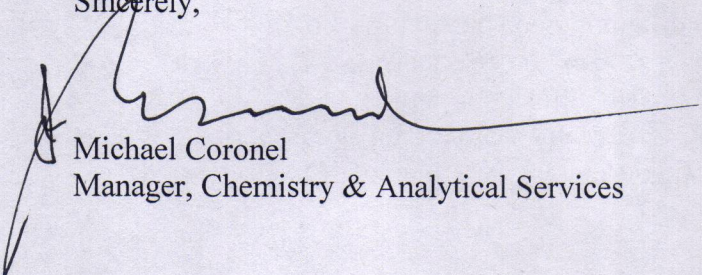

Attention Service Personnel:

Rocky Research has been very proud of the fact that we have been able to provide top quality analytical services to the HVAC industry for the past 17 years while maintaining a stable price schedule. However, operating costs have continued to rise and we must implement a price increase effective January 1, 2017.

Specific increases vary with analysis type. Please review the enclosed price list to obtain the details of the price changes that will affect your samples. Please be aware that samples received at Rocky Research on or after January 1, 2017 will be charged at these new rates.

We wish to thank you for choosing Rocky Research as your HVAC fluid analysis lab. We appreciate your understanding of the necessity for this price increase, and we look forward to providing you with many more years of analytical services.

Sincerely,

Michael Coronel
Manager, Chemistry & Analytical Services
