

New Product Release

Date: January 28, 2008
Announcing: Equipment Link (E-Link) Gateway
From: Building Efficiency Systems Program Management
Released To: Johnson Controls® Branches – Americas
 Johnson Controls Branches – Europe
 Johnson Controls Branches – Asia
 Systems Technology Distribution

Announcing the E-Link Gateway

The E-Link Gateway is an economical and versatile communications device that provides a connection between York equipment and open/standard protocols. It efficiently manages the communication protocols currently used by York equipment, exposing the data in a consistent, organized, and defined fashion. The E-Link Gateway is available as a circuit board that fits directly inside the equipment control panel; it is also available with a line voltage-enabled enclosure. A simple switch selection allows configuration of the required equipment profile and output protocol, which reduces equipment connectivity startup time.

The E-Link Gateway replaces current York MicroGateway products. Soon, MicroGateway products will be discontinued due to the obsolescence of key components, but will continue to be available as replacement parts for existing projects only.

Ordering Information

Table 2: Product Order Codes and Confidential Price List

Product Code Number ¹	Description	List Price (USD) ²
YK-ELNK100-0	E-Link Gateway with serial outputs (BACnet® Master-Slave/Token-Passing [MS/TP], Modbus® Remote Terminal Unit [RTU], and N2)	\$1,222.64
YK-ELNK101-0	E-Link Gateway with LONWORKS® output	\$3,184.91
YK-ELNKE00-0	E-Link Gateway with serial outputs in an enclosure	\$1,837.74
YK-ELNKE01-0	E-Link Gateway with LONWORKS output in an enclosure	\$3,800.00
YK-ELNKOLK-0	E-Link Optiview/Latitude installation kit	\$128.00

1. Products can be ordered through the Advanced Order Management System (AOMS).
2. Apply your sales channel multiplier for product transfer price calculation.

Release Schedule

Table 3 lists the schedule for the E-Link Gateway Release.

Table 3: Release Schedule

Item	Date
Orderable Date	February 4, 2008
Shipping Date – YK-ELNK100-0, YK-ELNK101-0, YK-ELNKOLK-0	February 4, 2008
Shipping Date – YK-ELNKE00-0, YK-ELNKE01-0	February 22, 2008
York Works Pricing and Estimating Tool Updates Available	February 25, 2008
Documentation on the Portal	January 28, 2008
Learning Modules Available on the Portal E-Link Field Operations Training: http://mylearning.jci.com/online/mylearning_launch.asp?keyword=8190-EN	January 28, 2008

Sincerely,

Robert Plouffe
