AIR CONDITIONERS & HEAT PUMPS

*Think about the things that make your home comfortable. From the small personal touches to the state-of-the-art luxuries, all your choices reflect a style that is yours alone. At York, we think that spirit can extend to your air conditioner or heat pump—even your entire heating and cooling system.*

*Sound ambitious? Not with York's Affinity Series Air Conditioners and Heat Pumps, perhaps the only line that's been engineered from the ground up and molded by modern design aesthetics. So you can choose attractive, customizable models with constant comfort, reduced noise and long-lasting, efficient performance.*

**What's your favorite color?** *Only the Affinity Series Air Conditioners and Heat Pumps give you a palette of seven designer colors to choose from. So you can choose the color that best complements your home. And since they're painted with automotive-grade powder coating, Affinity Series colors are as long-lasting as they are brilliant.*

## Always comfortable, always quiet.

You want a constant comfort level no matter what's happening outside. That's why Affinity models feature an industry-leading, two-stage scroll compressor design (available on 8T models). Translation: Your unit can operate at a partial capacity when conditions are mild, then instantly, automatically kick into full capacity when you need the most cooling.

Another innovation: almost complete silence. York's QuietDrive™ System features a swept-wing fan for smooth airflow and a composite base pan to distribute and dampen sound.

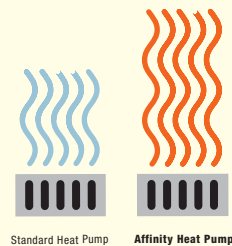

*Affinity—with some models as low as 65 decibels, it's one of the quietest sounds in your home.*

## Affinity Heat Pumps: the right solution in the right climate.

If you live in a region with relatively mild winters, or where electricity is more affordable than gas or oil, an Affinity Heat Pump may be a more cost-efficient choice. These all-in-one heating and cooling designs operate like an air conditioner in the summer. Then in winter, the operation is reversed and your home's interior is kept cozy and warm.

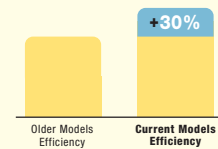

You can even choose an Affinity Heat Pump as part of York's Hybrid Comfort System™, allowing you to shift from the efficiency of an electric Affinity Heat Pump to the added power of an Affinity Gas Furnace for the most efficient heating you've ever experienced.

*York's exclusive Hot Heat Pump capability means the end of cold starts normally associated with conventional heat pumps.*

## New designs, new standards.

York's Affinity Series designs meet the federal government's 13 Seasonal Energy Efficiency Ratio (SEER). York also offers 15 and 18 SEER models for maximum energy savings. Boost that performance further still when you opt for a complete York system, including our long-lasting Affinity Furnace, Air Handler and Coils.

*Affinity Air Conditioners and Heat Pumps are now 30% more efficient than earlier models.*

## Clearing the air.

At York, we think comfort goes beyond simple temperature control. That's why we offer so many new ways to improve your home's air quality. From ventilation systems to electronic air cleaners and more, York's Total Comfort System™ approach means total peace of mind. You never have to worry about unclean air, hidden mold or energy costs again. And your family can relax and enjoy a genuinely clean, clear, comfortable home. Isn't that a breath of fresh air?

**Express yourself.** *With Affinity Series Air Conditioners and Heat Pumps, you really do have more choice. Select from a palette of seven designer colors for a look that complements your home's exterior, or choose panels that show your school spirit. From Georgia to Washington, from Florida to Wisconsin, we offer over 70 college favorites in all.*

## How to stay comfortable for years to come.

York and your York Dealer are proud to offer the YorkCare™ Comfort Plan. It's designed to maintain your system as well as your peace of mind. With up to 10 years of total coverage available, you can ensure your unit is effective and efficient for years to come.

What's more, your York Dealer offers maintenance agreements that provide upkeep while maximizing the warranty provisions.

Ask about the YorkCare™ Comfort Plan. A little extra coverage is always a comforting idea.

## Long story short: the history of York design.

You've probably enjoyed York engineering for years without even knowing it. We have, after all, designed and implemented heating

and cooling systems in some of the world's most famous structures, including the U.S. Capitol

building, India's Taj Mahal, the Sydney Opera House, the entire U.S. Navy

nuclear submarine fleet, and even venues such as your local mall and corner bank.

■ There's a reason people trust us

with the big jobs. We've been doing this a long time. Over 130

years, in fact. In that time, we developed the first successful room air conditioner and cooled the world's first theater, hotel and office building.

We're constantly leading the industry in our design and our technology. And our commitment has earned our products

the Good Housekeeping Seal of Approval. No matter what the scale, chances are we've developed an efficient, durable and effective solution for it.

■ Which is all a way of saying this: You can depend on York to give you the choices you're looking for and

the designs that will keep you comfortable year-round, year after year.

■ Want to know more? Contact your York Dealer. He's got 130 years of innovation to tell you about.

It's time to get comfortable
