M-11-06

We are very excited to announce that York, a Johnson Controls Company, is introducing the new Millennium Rooftop package units utilizing R410A, an environmentally friendly refrigerant, in 25, 30, and 40 ton capacities. Our customers can now enjoy the following improvements and enhancements:

1. Unit efficiency up to 10.5 EER (over 9.5% increase from 9.5 to 10.5 EER)(10.5 EER 25 ton, 10.0 EER 30,40 ton)
2. Increase in unit part load efficiencies up to 12.3 IPLV (10% increase for 25 ton unit: 10.92 to 12.3 IPLV, and 13% increase for 40 ton unit: 9.73 to 11.2 IPLV)
3. 4 independent stages of cooling (25, 30 and 40 ton units) offering more precise temperature control and energy savings
4. Heating capacity: 1-2 stages on 25, and 30 ton units, with up to 3 stages on 40 ton unit
5. Increase in unit efficiency using existing cabinet and footprint.
