

Title: **CENTRIFUGAL & ABSORPTION INITIAL START-UP CHECKLIST**

Number: C9011

Date: 6/01/90

Supersedes:

Date:

Models Affected: All New Centrifugal & Absorption Chillers

Purpose: To introduce to the field a new INITIAL START-UP CHECKLIST form for new chillers. These forms will be used for all new centrifugal and absorption chillers.

Background: The present INITIAL START-UP CHECKLIST form was designed at a time before the use of microprocessor controls, dual compressor chillers and starters with solid state components. Since these are key elements in the start-up process of most of our chillers, the new INITIAL START-UP CHECKLIST has been designed to include these new components. The new form is much more thorough than the old one. It will help everyone involved with a new start-up perform a better job. Also, it will show our customers that they are getting a quality start-up.

Procedure: These new INITIAL START-Up CHECKLIST forms can be ordered through Literature Distribution. The numbers for ordering are:

Centrifugal - catalog # S5408
bulletin # 917-496

Absorption - catalog # S5409
bulletin # 917-497

They are packaged in shrink film wrapping and come in lots of 25.

File Instructions: Installation/Start-Up/Operation
