

SERVICE BULLETIN

Title: Refrigerant Filter
Models Affected: All 17/19 DK/DM/DR Machines

Number: C9213
Date: 07/20/92
Supersedes: None
Date:

Purpose:

To advise of several changes implemented to the refrigerant filter assembly P/N KH11YZ141.

File: Cooler–Condenser

Prepared By: Otto Rosasco

Approved By: Alan Johnson

This document and the material contained herein are the property of Carrier Corporation and may not be copied, reproduced, or released without written permission of Carrier Corporation.

Machines Affected:

All 17/19 DK, DM, DR machines.

Production Change:

The refrigerant filter assembly has undergone several design changes as listed below:

A neoprene HCFC-123 compatible O-Ring replaced the flat gasket in the housing's groove. In addition, the bolt washer on the assembly's top cover was replaced with a Neoprene HCFC-123 compatible Stat-O-Seal.

The filter cartridge is sold with the O-Ring and Stat-O-Seal as a unit.

<u>DESCRIPTION</u>	<u>PART NUMBER</u>
Filter assembly	KH11YZ141
<u>Includes:</u>	
Filter cartridge	KH19YZ140
<u>Includes:</u>	
O-Ring	KK71PR044
Stat-O-Seal	Unassigned P/N

Observation:

This design change was made after the Jacksonville, FL office advised of leaks at the gasket joint in "YOUR Report #93".
