

# CYRUS SHANK COMPANY

## 900ME MANIFOLD

Our high capacity #900ME Manifold is to be used with our #900 series relief valves. This manifold is of all steel and stainless steel construction with teflon o-rings on the stem. Due to teflon sealing surfaces the manifold is rated for 500 Fahrenheit and 500# pressure. It is available in two sizes.

Manifold Size	Cv Rating (both ports)	Weight	To be used with:
2" inlet x 1 1/4" outlets	47.5	31	*900 & *901 relief valves
2" inlet x 1 1/2" outlets	66	31	*902 & *903 relief valves

\*Available with ductile iron (D) or aluminum (A) housing

Weight: Assembled with (2) 900A series relief valves = 56 lbs  
 Assembled with (2) 900D series relief valves = 81 lbs

If ordering a 900 series assembly you would receive:  
 (1) 900ME Manifold and (2) 900 series relief valves  
 It would be shipped to you unassembled and would not include the nipples.

List Price \$ 520.00 (The usual discount applies.)
