

## CYRUS SHANK COMPANY 900MW MANIFOLD

Our high capacity 900MW Manifold is to be used with our 901 & 903 relief valves. This manifold is of all steel and stainless steel construction with teflon o-rings on the stem. Due to teflon sealing surfaces the manifold is rated for 500° Fahrenheit and 500# pressure. It is available in the following two sizes:

Part #	Manifold Size	Cv Rating (both ports)	To be used with:
900MW-1 1/4"	2" MNPT x 1 1/4" FNPT x 1 1/4" FNPT	47.5	*901 relief valves
900MW-1 1/2"	2" MNPT x 1 1/2" FNPT x 1 1/2" FNPT	66	*903 relief valves

\*Available with ductile iron (D) or aluminum (A) housing

Weight: 31 lbs

Assembled with (2) 901A or 903A relief valves = 56 lbs

Assembled with (2) 901D or 903D relief valves = 81 lbs

If ordering a 901 or 903 assembly you would receive:

(1) manifold and (2) relief valves

It would be shipped to you unassembled and would not include the nipples.
