YK Chiller Software Enhancements  
Effective October 2006

### GENERAL

Beginning October 2006, enhanced software will be supplied in new production YK chillers. It is backward compatible to all previous YK chillers equipped with microboard 031-02430-000 or 031-02430-0001. The enhancements are outlined below.

The versions and part numbers are:

- NEMA 1-4 and CE chillers: C.OPT.01.15A.307 (031-02474-001)

### LANGUAGES

Version C.OPT.01.15.011 was released as English only. This version allows display in English, Chinese Traditional, Chinese simplified, French, Spanish, Italian, German or Hungarian language.
