Subject: Variable Speed Compressor Drive EPROM Reference List Corrections		

Background: The style “D” VSD for chiller compressors required software changes to support the 1100 Hp drive, and changes in the operation of the IEEE 519 filter. Some of the part numbers for the style “D” EPROMs were transposed on the back page of form 160.00-M1 (200).

Solution: The list of part numbers for these EPROMs are as follows.

Style “D” Units – 60 HZ Only
