

ES Service Information

File In/With: 160.45-RP2, 160.48-RP2 *Supersedes SI0015 (104)	SI0015
	New* 605

Equipment Affected: YT Chillers

Shaft Seal Application

General

This letter identifies the latest version shaft seals and seal upgrade kits available for YT compressors. Also listed are maintenance kits for servicing these seals.

The "TH", "TJ", "TL" and "TK" model compressors can be updated to either a 6-spring, or the current production bellow style seal. YORK recommends that compressors use the current production bellow style seals whenever possible.

The LTA, LTB, LTC, and LTD models do not have seal conversion kits available. This update lists the seal kits needed to service these compressors for your convenience

6 SPRING SHAFT SEAL KITS

Compressor	Retrofit Kit	Maintenance Kit
YDTJ 67 - 95 B1, B2, C1, C2, C3	464-47821-000	464-47823-000
LTJ and YTJ 67 - 95 B1, B2, C1, C2, C3	464-47822-000	464-47823-000
YDTH 108, 120 & 126	464-47824-000	464-47826-000
LTH & YTH 108, 120 & 126	464-47825-000	464-47826-000
YDTK & YTK 131 - 144	464-47827-000	464-47828-000
YDTL 108 - 144 E1, E2, E3, F1, F2	464-47829-000	464-47830-000

BELLOWS STYLE SEAL KITS

YDTL 108 - 144 E1, E2, E3, F1, F2	464-50050-000	464-50051-000
